WEB/UX DESIGNEF

Position Type

Full Time

Desired Class Level(s)

Alumnus

Description

What We're Looking For: A smart, creative, detail-oriented digital designer with a passion for bringing a client's vision to life online.

This is an opportunity to join our accomplished team of architects, designers and developers to create award-winning websites for higher education, association and non-profit clients. We are passionate about the work we do, committed to excellence and enthusiastic about our role as industry-leaders in accessible design.

Your role on this team will involve research, planning, conceptualization and visual design for our diverse portfolio of clients on projects both large and small. You will also support internal marketing and collateral efforts including our website, blog, whitepapers and presentations. This is a role with room to grow. We want you to bring as much passion for learning as you do for design. Our industry is ever-evolving and being part of this team means continuing to explore new and innovative approaches to UX challenges, a sharp eye on current standards for accessible design and an awareness of emerging usability and design trends.

In this position you will need to bring your best skills – and sense of humor – each day. We need your polish and professionalism for client-facing work and your positive attitude for the days with deadlines. We work hard, but we have fun doing it.

What We Need from You

Bachelor's Degree or equivalent and 2+ years of related experience designing for web and/or print

Google Analytics certification or work with other site analysis tools

Experience with wireframing tools such as Axure

Why Work for Us:

Your voice will be heard. You have the opportunity to be an integral part of a tight knit team in a small company where opinions and ideas are listened to and valued.

You'll grow professionally. Our employees are encouraged to further develop in their profession, stay on top of industry trends, and share their knowledge and experience with each other and our clients through our annual conference, webinars, blogs, and team collaboration events.

You'll work with great people. SAI hires nice, smart people who balance hard work with fun. We strive to make our work environment pleasant and productive, without interoffice politics.

Location, location, location. Our location off I-83 across from Hunt Valley Towne Centre is very convenient, offering easy access to commuters coming from all directions. Our new offices offer on-site dining, a fitness center and nearby shopping and restaurants.

Competitive salary and benefits. We offer competitive salaries, 100% employer paid health and dental insurance for staff, health savings accounts, 401(k) with a 25% match, paid time off and holiday pay.
