

CS 320 – Midterm Team Project Self / Peer Evaluation Form

Your Name: _____

Your Team: _____

[Required] How would you rate the progress of the project at this point? (Circle one)

Exceeds Expectations

Meets Expectations

Below Expectations

[Required] Rank your team members (including yourself) based on a combination of effort and results for contribution to your project (ties are not allowed) to this point. Also provide your assessment of each member's relative contribution to the overall project (out of 100%, where 100% is the sum of all team members' efforts). For example, for a 4-person team, if every team member made an equal contribution (unlikely), you would give each team member 25%.

Rank	Name	Relative Contribution (out of 100%)
1		
2		
3		
4		
5		

Team Project GitHub Repository URL:

[Required] List the most important contributions made by each team member (including yourself), both technical and non-technical.

Name	Technical Contributions	Non-technical Contributions

[Required] Add any additional comments about your team members and/or your team project below that may help further clarify your contribution to the project, your teammates contributions, and the overall outcome of the project:

[Required] Rank the team projects within your section, starting with the team that you believe has accomplished the most so far this semester. Also indicate whether each team exceeds, meets, or is below your expectations for what a successful project should be.

Rank	Team Name	Exceeds, Meets, Below Expectations
1		
2		
3		
4		

[Optional] Add any additional comments about your rankings / expectations for the team projects in your section below:
